## Advantage UNIVERSAL SPORT

Dear tennis and sports fans,

Universal Sport has been represented on the national and international market for more than 40 years. We are one of the largest suppliers of tennis and sports equipment in the world and are continuously expanding our global market position.

We place a particular focus on our own production of aluminium and steel products „Made in Schöniach“. Many other items from our extensive range are manufactured in Germany - look out for the „Made in Germany“ seal, the logo of our own brand „Court Royal“ and all certified products with the TÜV-GS seal.

Our presence at international tournaments is unbeatable proof of our professionalism we are.

You will find our new products on page 1 of this 2024/25 catalogue, followed by all the important products for the trend sports of padel tennis and pickleball from the USA. From accessories to turnkey systems, everything is represented. Here too, quality is of course our top priority.

Our legendary ability to deliver and the first-class service associated with this is due to the fact that we purchase and produce in advance at the end of each season.

The Universal Sport team is highly motivated and happy to support you with all your orders and questions at any time.

Should you require individual advice or are interested in customised products, we are always happy to help you personally.

Our daily parcel and forwarding service as well as our direct sales at our head office enable us to offer you first-class purchasing conditions.

You will find changing special offers and highlights in our web shop.

I wish you a good, healthy start to the new season and every success.

Managing Director / CEO Managing Director

### Pickleball net system Court Royal

The mobile pickleball net system is a German quality product manufactured in-house. High-quality aluminium profiles and wide feet for stability and sturdiness. Quick and easy assembly thanks to plug-in aluminium connecting elements. Ideal net tension thanks to the net tensioning system. Net height is guaranteed by the centre pole. The system complies with U.S.A.P.A. and DPB specifications. Complete with net. Dimensions 670 cm x 86.5 cm, weight 6.8 kg  
 No. 404231

### Pickleball net system Replacement net

With side insertion flaps, 670 x 80 cm  
 No. 404238

### Pickleball net system Court Royal Professional

This newly developed pickleball net system is an absolute novelty from our own production. A professional Court Royal model. The extra heavy transportable net system is made of an aluminium frame and ensures an optimal and secure stand with the heavy steel weight plates and the aluminium cross struts. The posts have an internal trapezoidal tensioning mechanism for easy tensioning of the net. A device is integrated in the centre of the net system to adjust the net to the optimum height using a webbing strap. With standard dimensions of 670 x 86.5 cm, the system is suitable for tournaments. Black powder-coated, complete dimensions of the system: approx. 681 x 93 cm. Without net.  
 No. 404233

### Yoorna Tinia 2.0

The Tinia 2.0 is the ideal beginner's model in the pickleball sport. It has a rounded shape and is made of wood with a weight of approx. 300 grams +/- 15 grams. The high-quality handle sits perfectly in the hand. The handle has a circumference of approx. 10 cm and a length of 13 cm. The attached edge protection protects the racket from wear and tear. Due to its weight, it provides sufficient power, especially for beginners with little effort. The racket complies with USAPA specifications and is suitable for all DPB tournaments.  
 No. 404240

### Belt strap II T

Für transportable Netzanlagen. Aus Nylon, mit Verstellerschlaufen, aber ohne Karabinerhaken.  
 No. 407101

### Pickleball GAMMA 3er Set outdoor

With 40 holes for a safe and precise flight. Approved as a tournament ball according to the official list of USA Pickleball and IFP Pickleball. Weight per ball: approx. 20 g  
 Colour: neon yellow  
 No. 404252

### Pickleball GAMMA 3er Set indoor

With 26 holes for a safe and precise flight. Approved as a tournament ball according to the official list of USA Pickleball and IFP Pickleball. Weight per ball: approx. 20 g  
 Colour: neon green  
 No. 404250

### Pickleball Net PN 5

Made of approx. 3 mm polyethylene braided rope, hand-knotted, black, knotted inside, very sturdy plastic double net border, complete with plastic-coated steel rope. Side and bottom edges with heavy, black plastic edging, as well as two 10 mm thick glass fiber rods for lateral fixation. Long life and best durability. 3 years factory warranty on the net.  
Dimensions: 660 x 80 cm, Mesh size: 4,5 cm  
No. 404230

### Pickleball post aluminium PP 73 with base plate

The plastic-coated aluminium posts with plate, manufactured in-house, are an absolute novelty on the pickleball market. The height of 91 cm above the ground with base plate, as specified by the association, is guaranteed. For this reason, these posts are suitable for competitions. With a diameter of 73 mm and a special three-chamber profile, this is a first-class product. The tried-and-tested screw-on aluminium gear mechanism ensures optimum net tension. All net holding poles, screws and hooks are made of VA steel.  
A special feature of these posts are the steel base plates, which can be attached to a concrete slab with dowels.  
No. 404224 black

### Pickleball Post Alu BH 73

Ausführung rund  $\varnothing$  73 mm aus kunststoffbeschichtetem Aluminium drei Kammern Spezialprofil, sehr stabil mit anschraubbarer Alu-Zahnradmechanik. Netzhaltestangen, sämtliche Schrauben und Haken aus VA Stahl. Zum Einbau in den Boden. Lieferung ohne Bodenhülsen. Gesamtlänge: 125 cm, über Boden: 90 cm  
No. 404222 grün  
No. 404223 schwarz

### Ground Sleeves 73

Ground sleeves for 73  $\varnothing$  mm post  
No. 404281

### Center Strap III

With plastic snap lock, spring hook and Velcro strip.  
No. 40720

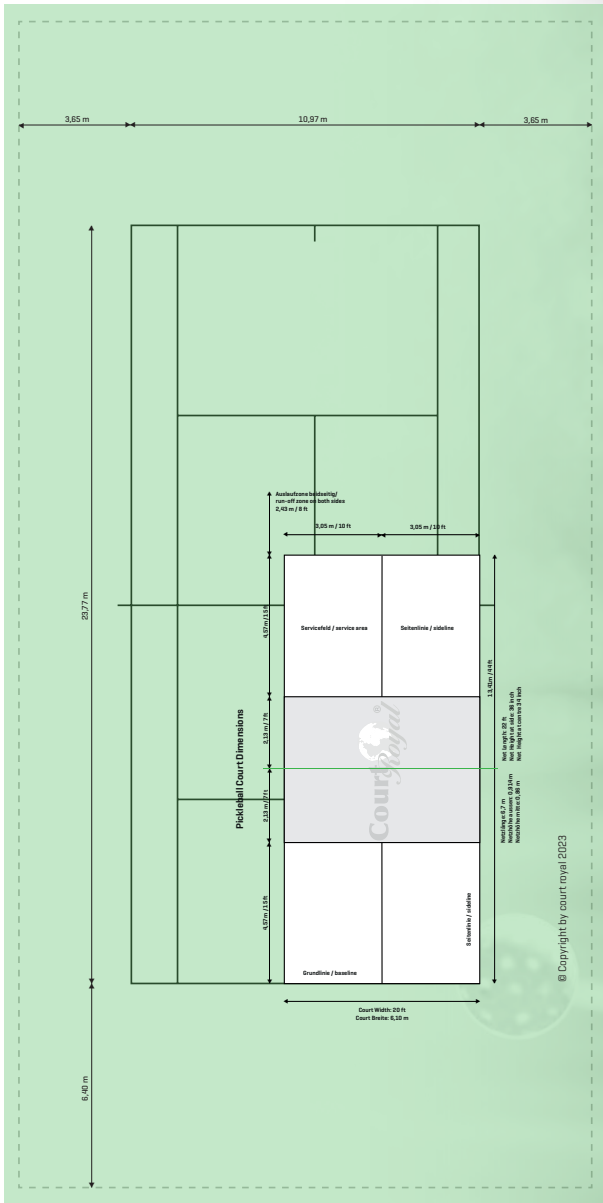

### Pickleball Net System

This mobile tennis net system was specially developed for pickleball. Fast and simple construction, stability due to wide standing-feet. Optimal tension of the net through self-clamping system. Space-saving storage in a practical bag. Complete with net.  
Dimensions: 670 x 86,5 cm  
No. 404235

### Pickleball Net System Replacement Net

With side pockets 670 x 80 cm  
No. 404238

Space required for pickleball court compared to tennis tournament court

## Ball Machine Pickleball Tutor Mini

The new ball thrower is a novelty and was designed specifically for pickleball. Fully equipped and incredibly user friendly. The compact design with 38 x 33 x 30 cm paired with a low weight of around 11 kg allows optimal transport. With the manual height control, a feed from groundstroke to lob is easily possible. Imposing ball speeds of up to approx. 80 Km/h cover every need. A regular ball sequence can be set individually between 2 and 10 seconds. Dynamic training is provided by an oscillator, which distributes the balls variably over the playing field. Great capacity of up to approx. 60 outdoor or indoor balls. Built-in rechargeable battery allows up to approximately three hours of play time per charge.

### Technical details:

Ball capacity:	appr. 60 Balls
Dimensions (HxWxD):	38 x 33 x 30 cm
Weight (with battery):	ca. 11 kg
Power:	battery
Playing time:	2 - 3 hours
Recharging time:	12 Std.
Feeding interval:	2-10 sec.
Top speed:	appr. 80 km/h
Ball flight:	manually adjustable (lob/round shot)
Line-directions:	one direction and randomly
Ball type:	indoor and outdoor
Housing:	plastic
Remote control:	none, on-off switch

No. 404270

## PADEL COURT ROYAL

### Complete system ready to play

Complete system 10x20m for indoor and outdoor. Complies with the regulations of the German Padel Federation (DPB) and the International Padel Federation (FIP). Construction according to EN 10219 with hot-dip galvanized steel and thermosetting polyester paint. All screws made of stainless steel. Tempered safety glass according to EU standard with 10 mm and quality rubber seals. Advance artificial grass with quartz sand filling and lining available in various colors. Adjustable paddle net with posts. Two entrances in WPT design with a width of 100 cm. In addition, the Court can be equipped with four floodlight poles with LED spotlights (not included in delivery). A solid ground is required for the construction of a foundation. For outdoor a strip foundation with permeable asphalt is recommended.

No. 40646

### Padel Court Royal Portabel Single

Mobile Kompletanlage mit 6x20m für InMobile complete system with 6x20m for indoor and outdoor. No fixed foundation is needed for this system. The System is mounted on a portable kit with frame made of steel pipe girders all around.

No drilling into the ground is required.

No. 407471

### Padel Court Royal Portabel

Mobile complete system with 10x20m for indoor and outdoor. No fixed foundation is needed for this system. The System is mounted on a portable kit with frame made of steel pipe girders all around. No drilling into the ground is required.

No. 40747

### Padel Tennis Netpost PP 73 with plate

Round design  $\varnothing$  73 mm made of plastic-coated aluminium three-chamber special profile, very stable with screw-on aluminium gear mechanism. Net holding rods and all screws and hooks made of VA steel. With base plate for fixing to the concrete slab with dowels.

Length above ground: 92 cm

No. 40636

### Padel Tennis Netpost PP 73 BH

Round design  $\varnothing$  73 mm made of plastic-coated aluminium three-chamber special profile, very stable with screw-on aluminium gear mechanism. Net holding rods and all screws and hooks made of VA steel. For installation in the ground, supplied without ground sockets.

Total length: 125 cm, above ground: 92 cm

No. 406351

Ground sleeves for 73  $\varnothing$  mm post

No. 404281

### Padel court broom plastic yellow

50 cm wide, with 3 interchangeable broom sections on an aluminium base frame. Complete with three-part, very sturdy aluminium drawbar and mountable net deflectors. The ideal maintenance broom for synthetic turf surfaces filled with quartz sand. Plastic bristles, yellow, angled

No. 408811

### Replacement broom plastic yellow

No. 40883

### Padel Tutor Plus ball throwing machine

The Tennis Tutor Padel is a battery-operated ball throwing machine specially designed for padel balls. With its compact dimensions of 51x50x51 cm and a weight of only 21.6 kg, it is ideal for transporting. Thanks to the extendable handle and wheels, the machine can be pulled as a trolley. The ball speed can be customised from a slow ball to a high-speed ball with a brilliant 136 km/h. The trajectory can be varied between net roll and lob, a regular ball sequence or a random scattering angle in 1.5-10 seconds. The practical, fold-out ball container holds approx. 150 balls. With a battery life of 4-6 hours, extensive training is easily possible without interruptions to recharge the ball throwing machine.

#### Technical data:

Capacity:	approx. 150 balls
Dimensions:	(height x width x depth) 51 x 50 x 51 cm [closed]
Weight:	[with battery] 21.6 kg
Power connection:	Battery operation [charging current 230 V]
Battery life:	4 - 6 hrs.
Charging time:	12 hours
Ball sequence:	1.5 - 10 sec.
Maximum speed:	136 km/h
Flight path :	short - long adjustable
Ball type:	topspin, spin, flat, slice
Spreading angle:	1 direction and random
Housing:	Plastic
Remote control	wireless on/off

No. 40640

### Padel Balls unlimited

The combination of a robust rubber core with a high-quality felt layer meets the special requirements of padel play. Good ball control and a precise point of impact are guaranteed. Compared to tennis balls, the internal pressure is reduced. Weight: approx. 56 g..

No. 40638 3 ball tin

No. 40637 4 ball tin

### Padel Tennis Net PN 8

Made of approx. 3 mm high-strength polypropylene, black, PES net binding. Complete with plastic-coated steel cable.

Dimensions: 1000 x 92 cm, mesh size 4.5 cm

No. 40630

### Padel Tennis Net PN 9

Very sturdy plastic double net surround, complete with plastic-coated steel cable. Sides and lower edges with heavy, black plastic edging and two 10 mm thick fibreglass rods for lateral fixation. Long service life and optimum durability. 3-year factory guarantee on the net.

Dimensions: 1000 x 92 cm, mesh size 4.5 cm

No. 40631

### Center Strap III

With plastic snap lock, spring hook and Velcro strip.

No. 40720

### Padelcourt screen Digimash

4 C digital print.

With silver-coloured eyelets every 50 cm.

Dimensions: 1850 mm x 900 mm

Delivery incl. snap hook

No. 41526 one-sided print

No. 41527 double-sided print

## Maintenance + Care

The Universe of Sports

## Turbo broom USP 10

The USP 10 turbo broom makes it easier for you to remove the old brick dust in spring. Thanks to its low weight, the broom is easy to move. The V-belt drive enables left/right movement, so even the corners of the tennis court can be removed cleanly. The USP 10 turbo broom is very versatile. For example, it can also be used for clearing leaves and snow from paths and car parks.

Controlling the direction of rotation

Height adjustment

Engine control unit

### Technical data:

Engine:	Honda four-stroke engine approx. 5 hp. Normal petrol
Traction drive:	by hand
Sweeping brush drive:	V-belt drive left/right
Working width:	approx. 90 cm
Tyres:	Balloon tyres
Weight:	88 kg
Time required per square:	approx. 40 min.

No. 40161

as above, though without saw blade.

No. 40042

**Saw Blade** for wooden rake.

No. 40051

**Wooden Handle Ø 28 mm**

No. 40094

**Aluminum Sharrier**

One side with steel band saw blade, the other side with solid profile, 70 cm wide.

No. 40050

**Saw Blade** for plow

No. 40051

**Wooden Handle Ø 28 mm**

No. 40094

**Aluminum Surface Profile Blade**

To smooth out irregularities, without handle.

No. 40080 80 cm wide

No. 40081 150 cm wide

**Wooden Handle Ø 28 mm**

No. 40094

**Aluminum Scraper**

Double-sided tool, one side toothed to roughen surface, other side flat for spreading. 80 cm wide, without handle.

No. 40070

**Wooden Handle Ø 28 mm**

No. 40094

**Dressing Spreader**

Trapezoidal shaped aluminum section dressing spreader. Light and easy to handle yet robust for precise distribution of material over large areas, 200 cm wide, without handle.

No. 40084

**Wooden Handle Ø 28 mm**

No. 40094

**Special Rake**

Made of stainless steel, corrosion-resistant, for professional smoothing of clay courts, 66 cm wide, without handle.

No. 40083

**Wooden Handle Ø 28 mm**

No. 40094

## Hard PE Smoothing Mat

The newly developed Universal Sport aluminum profile perfects the long-standing concept of the drag mat hard PE and combiplaner. Due to the 15 x 20 cm individual segments a maximum flexibility of the whole application is given. The manifold scratch elements at the bottom side are ideal for roughening the place and at the same time for smoothing the unevenness and cleaning from leaves without damaging the surface. Especially suited for Cannada -Tennis, artificial grass courts and clay courts. All used material is extremely weather resistant and low wear. Dimensions: 185 x 75 cm  
No. 41070

## Combination Leveler

The newly developed Universal Sport aluminum profile perfects the long-standing concept of the drag mat hard PVC and combiplaner. This special tool combines the advantages of the drag mat Hard PVC and that of a drag net. The PVC front part opens and clears unevennesses and with the rear part of the heavy drag net the open places are smoothed again and scratched filth gets dragged along. All used material is extremely weather-resistant and low-wear. Working width: 185 cm  
No. 41079

## Smoothing Mat Super Clean

This mat was developed to remove foliage, leaves, pine needles, etc. in an effective and quick way. This is possible through the smoothing with the Super Clean drag net which leads to excellent court leveling. After the smoothing a shaking out of the net outside the court is sufficient. The net should be kept flat on the ground while using. Dimensions: 230 x 66 cm. Includes aluminum rail with drag cord.  
No. 41077

Alle Preise verstehen sich inkl. gesetzlicher MwSt..

## Uniplan 75

Heavy aluminum pull rod to level the tennis court surface, special PVC fabric extra, double. Working width 190 cm. Net depth 75 cm with pull rope.  
No. 410309

### Broom-Mat Platzfit 150

Combination broom and mat. Consists of a broom with plastic bristles and PVC drag net. Aluminum rail and handle.

No. 41071 working width 150 cm

### Replacement Brushes 150 cm

No. 410712

### Broom-Mat Platzfit 200

Combination broom and mat. Consists of a broom with plastic bristles and PVC drag net. Aluminum rail and handle.

No. 41072 working width 200 cm

### Replacement Brushes 200 cm

No. 410710

### Combined Broom

The new Combination broom and net. The top court equipment for clay and granular courts. Consists of a plastic/Arenga broom and PVC special net. Aluminum rail and handle.

No. 41073 working width 200 cm

### Replacement Brushes 50 cm

No. 40936

### Combined Hand Leveler

Combination hand leveler and drag net. The ideal tool for smoothing courts after sprinkling or rainfall. Due to the rubber blade and the drag net two operations are done in half the time. Fills unevenness and smoothes the court surface.

No. 41078 working width 200 cm

### Coconut Smoothing Mat

Heavy-duty coconut mat with PVC edges 200 x 100 cm. Wooden rail with drag cord.

No. 41060

### Replacement Smoothing Mat

Size 200 x 100 cm

No. 41050

### Drag Net Double Holder

The newly developed double drag net holder for ideal storage of smoothing and drag nets. Made of aluminum tubing with two hooks and a fixing bracket for fence posts with Ø 60 mm. The holder is coated in yellow plastic and therefore easily visible.  
No. 41434

### Rubber Squeegee "Dry Court"

Made of aluminum, 145 cm wide, replaceable rubber blade, 2 durable wheels in front. Easy and convenient for water removal and ball collection. Works especially well around pools, on driveways, golf greens and any flat or hard surfaces. Comes with one blade for replacement.  
No. 41183

### Replacement Rubber Blade

No. 41184

### Tool Holder

Zinc-plated steel, fixing bracket with standard hook. To hang brooms, drag nets and smoothing mats.  
No. 41430 Ø 45 mm  
No. 41440 Ø 60 mm

### Drag Net Holder

Made of galvanized flat iron, 3 mm thick, includes fixing materials for trouble-free assembly on fence post.  
No. 41443

### Handle Holder

For line brushes and all other equipment with a broom handle diameter of 23-28 mm. The rubber holder holds the handle securely. The holder can be easily attached to a fence post with Ø 60 mm, by using clamps.  
No. 414321

### Tool Holder EXTRA

Fixing clamp with rubber lining. Does not damage fence posts. All steel parts zinc-coated. For brooms, drag nets and smoothing mats. For fence post with 60 mm Ø.  
No. 41435

Alle Preise verstehen sich inkl. gesetzlicher MwSt.

### Tool Holder

Fixing clamp with 1 hook. For brooms, drag nets and smoothing mats. Made of zinc-coated steel, for fence post with 60 mm Ø.  
No. 41431

### Hand Brush Holder

Fixing bracket with 2 hooks for hanging hand brushes. Made of steel, for fence post with 60 mm Ø.  
No. 41433

## Tennis Court Drying Sponge

Special viscose sponge. Size: 50 x 30 x 8 cm, for draining individual water points. The sponge is placed on the water point, it soaks up water on its own and can then be easily washed out of the area.  
No. 41155

## Tennis Court Drying Set

Bucket with galvanized grid plate and sponge with aluminum handle. To soak up small puddles on the court.

No. 41182

## Water Roller

Foam rubber roller with handle. To clear puddles from hard courts, 90 cm wide. All metal parts galvanized.

No. 41180

## Spare Roller for Water Roller

No. 41181

## Scissor sponge roller

For removing puddles of water with replaceable suction cylinder made of special foam and aluminium scissor handle.

- Length incl. roller body approx. 1440 mm
- Total width at bottom approx. 520 mm
- Width of roller body 500 mm
- Top handle width approx. 520 mm
- Weight 4 kg
- Suction capacity of sponge approx. 4.2 litres

No. 411855

## Replacement sponge roller

No. 411856

## Universal Absorbing Roller Special

Absorbing drum with foam rubber covering, hot-galvanized frame and drum body. Thanks to the huge absorbent capacity of this roller it is possible to make a court playable again in a very short period of time. Working width 80 cm.

## Replacement Absorbing Drum

No. 41150

## Replacement Sponge with adhesive

No. 41151

## Sponge roller Special

Innovative maintenance tool that removes puddles of water from the tennis court in the shortest possible time. Thanks to the specially designed surface structure, the sponge roller has an enormous suction volume. In addition, sand or other materials do not stick. With the handles provided for this purpose, the sponge can be squeezed out in a vertical position in a matter of seconds. Suitable for brick dust, quartz sand or hard court surfaces.

- Sponge width approx. 500 mm
- Sponge diameter approx. 230 mm
- Weight 4.9 kg

No. 41185

Alle Preise verstehen sich inkl. gesetzlicher MwSt.

### Full-circle Sprinkler

Large surface sprinkler with a circle diameter of 32 m, thus sprinkling a total area of 800 sqm. Connection 3/4". Without tripod.

No. 41322

### Part-Circle and Full-Circle Sprinkler

Large surface sprinkler with a circle diameter of 32 m, thus sprinkling a total area of 800 sqm. Working area can be adjusted from 20° to 340°, or full-circle. Connection 3/4". Without tripod.

No. 41321

### Folding Tripod

Specially developed for the tennis court. Large foot disks prevent damage to the court surface. Folding mechanism makes it easy to handle and to store in small places. Suitable for all types of sprinklers in our catalog.

No. 41323

### Circular Sprinkler

Large-area sprinkler with a circle diameter of 32 m, thus sprinkling a total area of 800 sqm. Without tripod.

No. 41320

### Perrot - Turbo Quadrilateral Sprinkler

Triton SW

Single-jet oscillating lever sprinkler with hot-dip galvanized steel housing, galvanized steel-plastic coated perimeter plate and impact- and break-resistant plastic housing cover. 22° stream rise and stream disrupter to vary the throw side and water distribution. Polyamide guide housing with brass stabilization.

No. 41331

### Spray Nozzle

Large nozzle sprinkles evenly over large areas. Complete with Geka connection and tube.

No. 41340

### Spray Nozzle with Shut-Off Valve

Large nozzle sprinkles evenly over large areas. Complete with Geka connection and tube. With shut-off valve.

No. 41350

### Pistol Spray Nozzle

Large nozzle sprinkles evenly over large areas. With a pistol grip. Optimum adjustment of sprinkling with shut-off device.

No. 41360

### Adjustable Nozzle

Made of light alloy metal with hard PVC steel tube. Metal ball valve lever and spray adjuster. Jet length approx. 15 m. Complete with Geka connection.

No. 41361

5-ply PVC quality hose, UV and ozone resistant, free from algae formation, phthalate-free, high-strength polyester yarn with patented SMT Steady Mesh Technology that actively prevents the hose from twisting.

Properties: extremely easy to handle, excellent flexibility even at low temperatures, high resistance to kinking and crushing. [Temperature -15° to +65°] Applications: for irrigation of tennis courts and sports facilities.

## SANDY – Brick Sand Distributor

The SANDY brick sand distributor has been thoroughly revised and now makes new sanding during spring repairs even easier and more effective. 2 helpers for the material supply and a good half hour are enough to apply a carpet of brick dust such as sand evenly and in one operation. Sandy can be moved easily by hand and holds approx. 120 kg of fresh brick dust. With dimensions of approx. 1000 x 500 x 600 mm, it is very easy to handle and has an ideal weight of approx. 50 kg. Working width 990 mm. The functional sand spreader was developed by experts and has proven itself in practice on a number of sites. The fresh brick dust carpet is no longer driven over after application. Even on uneven surfaces, you can achieve a completely smooth surface that then only needs to be treated with the trawl.  
No. 40142

## Milling machine for tennis court surfaces USP 10

It really is bordering on witchcraft when you realise the time and precision with which spring overhauls are now carried out with this special milling machine. Previously, groundsman and members had to laboriously remove the used brick dust by hand. Often too little material was removed. Tennis court surfaces became thicker and more impermeable. The USP 10 tennis court tiller overcomes these problems effortlessly! The exact height is adjusted by hand using 2 wing screws. This can be done independently on both sides. This device allows the tilling depth to be determined with millimetre precision. The milled material is ejected in strips and can be shovelled into wheelbarrows with little effort. The power of the 5.5 hp Honda engine ensures that work with the USP 10 tennis court tiller is absolutely even, so that the courts remain level or become level again. Thanks to a comprehensive service network, maintenance and repair of the quietly running engine is guaranteed everywhere. The USP 10 tennis court tiller rolls on 2 independently mounted roller bodies at the front. This distributes the pressure evenly so that it hardly sinks in, even on thawed courts in spring. The rear, treadless solid rubber wheels and the low weight make the machine extremely manoeuvrable and mobile. The USP 10 tennis court tiller fits through any access door and can easily be operated by one person.

### Technical data:

- Length approx. 800 mm - Width approx. 850 mm - Height approx. 1000 mm
- Milling width approx. 655 mm - Weight approx. 75 kg
- Honda engine, 4-stroke, 4.0 kW/5.5 hp

No. 40140

## Manual Roller I Spezial

Suitable for tennis courts and sports fields. Working width 90 cm. Empty weight 60 kg, with water filling 180 kg, one-piece roller body with rounded edges and counterweights.  
No. 40170

## Manual Roller I

As above, but without counterweights.  
No. 40171

## Manual Roller II Special [s. Abbildung nebenstehend]

As above, but much more manoeuvrable due to the split roller body.  
No. 40180

## Manual Roller II

As above, but without counterweights.  
No. 40181

## Motor Roller USP two-piece, new generation

The USP tennis court rollers of proven design and quality with new panning, improved once again. With two-part roller body with equalising differential for better turning of the roller. The mechanically turned roller body characterises this USP motor roller. The 900 mm wide trailing roller prevents the roller from sinking into the tennis surface. Better noise insulation and the biodegradable hydraulic oil are unrivalled are unrivalled.

### Technical data:

Engine: Honda GX 160, four-stroke engine  
4.0 kW = 5.5 hp at 3600 rpm.  
Electronic, contactless ignition,  
oil warning control system, smooth  
running,  
Intake noise insulation

Easy start due to  
automatic decompression system

Fuel: unleaded regular petrol  
Drive: hydraulic  
Roller body: two-piece, 900 mm wide, with differential  
for high manoeuvrability, diameter Ø 500 mm  
Speed: stepless up to approx. 5 km/h; forwards and back  
wards  
Working width: 900 mm  
Weight: empty approx. 350 kg, filled approx. 480 kg  
Dimensions: length: 1800 mm, width: 985 mm, height 1100 mm  
With biodegradable hydraulic oil!

No. 40136

## Motor Roller Zagro FUTURA - Self-Driving

Mount motor roller with a swivelling seat, rubber-coated, broad drive front wheel, split roller body with compensation differential for high manoeuvrability. Simple and easy rolling on the tennis courts.

### Technical data:

Motor: Honda GX 160, 4-stroke engine 4,0 kW at 3600 U/min.  
Fuel: unleaded gasoline  
Drive: hydraulic drive  
Roller: single-piece or split; width 900 mm, Ø 508 mm  
Speed: infinitely adjustable to approx. 6 km/h,  
forward / reverse

Working width: 900 mm  
Weight: empty ca. 380 kg, full ca. 510 kg  
Dimensions: length: 1800 mm, width 990 mm, height: 1050 mm  
No. 40152

## Nets + Accessories

# Court Royal<sup>®</sup>

## Advantage for COURT ROYAL tennis nets

With our COURT ROYAL brand, we have been one of the world's leading manufacturers of high-quality tennis nets for all performance classes for over 40 years, from club sport to international ATP professional tournaments.

Our nets are exclusively hand-knotted and, thanks to their elasticity, offer above-average durability on the one hand and optimum shock-absorbing rebound behaviour on the other.

All tennis nets from our large range are supplied with a steel cable, are labelled with the „tested safety“ seal and meet the strict requirements of DIN EN 1510.

### Tennis Net Court Royal TN 8

Made of 3.2 mm braided polyethylene, hand-knotted, black, stable polyester net enclosure stitched four times, complete with steel wire. DIN EN 1510. With European Seal of Approval. No. 40549 black

### Tennis Net Court Royal TN 15 black

Made of 3.2 mm braided polyethylene, black, hand-knotted, the upper 6 rows double-knotted, stable polyester net enclosure stitched 4 times. A super tennis net, long-lasting, good quality. Complete with steel wire. DIN EN 1510. With European Seal of Approval. No. 40550 black

### Tennis Net Court Royal TN 20 black

Made of 3.4 mm braided polyethylene, black, hand-knotted, the upper 6 rows double-knotted, stable polyester net enclosure stitched four times. 1000 times proven, classic tennis net. Used in the tennis league, ATP-tournaments, Davis-Cup, as well as in the Olympics. A top-class product. Complete with steel wire. 2 years factory warranty on the netting. DIN EN 1510. With European Seal of Approval. No. 40560 black

## Tennis Net Court Royal TN 9

Made of 3.4 mm braided polyethylene, hand-knotted, black, stable polyester net enclosure stitched 6 times, complete with plastic-coated steel cable. Sides and bottom with heavy, black plastic edging as well as two 10 mm strong fiberglass rods for lateral fixing. Long-lasting and very durable. 3 years factory warranty on the netting. DIN EN 1510. With European Seal of Approval.

No. 40545 black

## Tennis Net Court Royal TN 15 green

Made of 3.2 mm braided polyethylene, green, hand-knotted, the upper 6 rows double-knotted, stable polyester net enclosure stitched 4 times. A super tennis net, long-lasting, good quality. Complete with steel wire. DIN EN 1510. With European Seal of Approval.

No. 40552 green

## Tennis Net Court Royal TN 20 green

Made of 3.4 mm braided polyethylene, green, hand-knotted, the upper 6 rows double-knotted, stable polyester net enclosure stitched four times. 1000 times proven, classic tennis net. ### Tennis Net System Court Royal II Tournament

This newly developed tennis net system is a unique top-class product; it differs from conventional systems through simple modification from double court measurements to single court measurements. Will be delivered in 5 parts. For single court usage the middle part has to be removed and a single net has to be mounted. Delivery is without net, single net rods and center strap. Here we recommend tennis net Court Royal TN 50 No. 40565 (page 28) for doubles and tennis net Court Royal TN 55 No. 40566 (page 29) for single as well as Center Strap II No. 40710 (page 34), weight: 165 kg.

- No. 40485 white
- No. 404851 black

Tennis Net System Court Royal modified for single matches

Only available in complete sets.

## Fastening Nails

Rounded, flat-head, hot-dip galvanized.

Specially made for tennis lines.

5 kg required for each court.

No. 40310

## Treated Wooden Pegs

For securing the corner points. 16 pegs required for each tennis court.

No. 40330

## Marking lines for children's tennis

The ideal marker for small court tennis. Made of heavy, low-slip and indestructible PVC. Due to its high dead weight, the line is stumble-proof, with good ground adhesion, without fastening on the court. Additional fastening option with punched holes at both ends of the line. The marking set consists of 2 rolls, 11 m long and 8 cm wide.

No. 45000 white

## Tennis Line Speziala / Court Plus

This tennis line has been developed especially for clay courts. Made of flexible, hard PVC. With 4 mm wide lateral slits, at 28 mm intervals. The lines for double courts are supplied in 6 rolls. Hard PVC and lateral slits allow the lines and court surface to interlock perfectly. The lines are anchored with 18 ground plugs per court, which are included with all line sets. The installation of the lines can be carried out by only 1 person. Please choose the lines with the appropriate anchoring set for your needs.

### Ratchet Tensioner

Galvanized tensioner with special belts.  
No. 40371

### Drive-in Peg for Anchor Tube

Made of steel. In order to avoid damages while bashing the ground anchors, it is highly recommendable to use the drive-in-peg for anchor tubes.

MADE IN GERMANY

### Umbrella Holder for Players' Bench

Made of white, powder-coated aluminum, with fittings for easy mounting. No. 408007

## Fantastic aluminium bench with 4 seats

This modular system allows for an enormous variety of club colours. The frame is made of natural aluminium and is equipped with a sturdy cross strut.

The bench is UV-resistant and absolutely weatherproof thanks to the water drainage on the seat shells. The bench is easy to transport thanks to its low weight. Screws for fastening and cover caps are included.

Height: 900 cm Width: 450 cm Length: 1960 cm  
No. 41221

## Deluxe Tennis Bench

Our newly designed tennis court bench has everything you could wish for.

Plenty of space (approximately 100 x 45 cm) in the middle for bags and rackets, two comfortable seats, with plastic-, weather- and light-resistant seat pads, 57 cm wide and 50 cm deep. Super robust design. A first class product.

No. 41213 white

## Bench Hohenzollern

Elegant, yet extremely robust bench for tennis courts and outdoor use. With armrests, seat width 150 cm, seat depth 50 cm. Solid plastic construction with integrated, stainless steel brackets. Seat and back are supplied preassembled to make setting up easier.

No. 412012 white

## Bench Cologne 120 cm long, white

Size 600 x 500 mm.  
No. 41286

### Waste Bin 50 I

UV-resistant plastic waste bin. Heavy-duty hot galvanized metal fixture for fastening to poles, railings or walls. Complete with hardware and key.

No. 41233 green  
No. 41234 orange

### Designer Waste Bin „Tennis Ball“

In the shape of a tennis ball, approx. 50 cm Ø. Made from top-quality special plastic. Completely UV and weather-resistant. Hinges and fastening materials made from stainless steel. Hinged lid. Standard version with 2 quick-release straps for mounting on poles, railings or walls.

No. 41224 yellow  
No. 41223 green

### Wire Waste Bin 18 I

Semi-circular, galvanized with perforated metal base to drain water. Spring hooks for fastening to fence. Size: height 14 cm, width 32 cm, depth 17 cm.

No. 41236

Alle Preise verstehen sich inkl. gesetzlicher MwSt..

### Wire Waste Bin 63 I

2 mm sturdy, strong hot-galvanized frame. 4.8 mm round steel legs. Size: 40 cm Ø; height 50 cm.

No. 41277

### Wire Waste Bin 75 I

2 mm strong hot-galvanized frame with 4.8 mm round steel legs. Metal base with holes for water drainage. Size: 40 cm Ø; height 60cm

No. 41278

**The quality screen, tried and tested thousands of times worldwide.**

Heavy polyethylene fabric, UV-stabilised, wind-permeable. Reinforced all round with eyelets every 50 cm, therefore particularly tear-resistant.

**Screen Super** Die Qualität Super wiegt 160 g/qm, ist winddurchlässig und in den Farben hell- und dunkelgrün erhältlich. Es ist die meistverkaufte Sichtblende.

**Screen Exklusiv** The Exclusive quality weighs 140 g/sqm, is extremely wind-permeable, ideal for printing and available in the colours light green, dark green, yellow, white, blue, red and black. It is available in 12 x 2 m but also up to a length of 50 m and a width of up to 4 m.

**Printing** Our covers are printed with special UV-resistant colours. This ensures particularly good adhesion and long durability. As standard, the covers are printed in black. Other print colours are subject to a 25 % surcharge.

All company logos, logotypes and lettering can be produced on request. Photo prints are also possible.

The prerequisite for production is the delivery of a printable file (vectorised or print PDF) by the client. Production only after approval of the control template (PDF).

**Padelcourt Screen Digimash**

4C digital print.  
With silver-coloured eyelets every 50 cm.

### Standard Dividing Net Super black

The newly developed knotted dividing net with a material thickness of 1,6 mm for indoor and outdoor use is absolutely weather-resistant and extremely tearproof. Due to the colour black and the thin material the net is more transparent than the conventional dividing nets. The mesh size is 4,5 cm. Complete with 38 m long steel wire and 2 tension locks. 200 g/m cord weighs and 3 galvanized snap hooks per meter. Size 40 m x 3 m  
No. 42500

### Broom for Granular Surfaces (above)

Broom with Arenga bristles for hall floors with rubber granular. The special position of the bristles guarantees an even sliding of the broom. Complete with a very sturdy aluminum handle in three parts. Working width 200 cm.  
No. 41075

### Granu-Top Broom (below)

This is the perfect broom for cleaning granular surfaces. The bent ends of the broom and the position of the bristles guarantee an even spread of granules. The static supercharge cleans debris abraded from the balls and lint from the surface. Complete with aluminum handle and weights on both ends.  
Working width 200 cm.  
No. 41076

### Replacement Brush for Granu-Top

No. 410761

## Compact

### Tribune Seat Compact for Self Assembly

Made of moulded, shock-resistant, UV-resistant polypropylene. Fast and simple assembly on nearly every underground due to triple fittings. The attachment points are protected against vandalism. All seat shells are equipped with a water drain. Available in the colours: black, white, orange, green, blue, yellow, red, grey. Please indicate the colour. For an additional charge, the seats can be numbered [flame-retarding on request].

### Court Royal tribune with 50 seats, three rows, indoor and outdoor

The exclusive Court Royal tribune for all outdoor sports with 50 comfortable seats in three rows as well as a 9.19 m x 2.13 m centre aisle and railings.

The construction is made of steel profile tubes and heavy gratings as floor covering. All steel parts are hot-dip galvanised and completely weatherproof. The UV-resistant plastic bucket seats offer comfortable seating and can be supplied in various colours. The grandstand is supplied in 4 modules width of 2 m with 12 seats as well as a 1.2 m wide stair module with 2 seats for easy assembly on site and complies with DIN 13200. Available colours: see pages 64-65

No. 40985

#### Technical data:

Length:	9.19 m
Depth:	2.13 m
Height:	1.52 m
Seat height:	0.84 m
Capacity:	50 seats
Stand material:	hot-dip galvanised steel
Seat material:	injection-moulded polypropylene, impact-resistant, UV-resistant

### Court Royal tribune roofing for self-assembly as a kit

The stable substructure is made of anodised, corrosion-resistant aluminium profiles measuring 160 x 100 mm. The roof is made of impact-resistant, UV-resistant and heat-repellent polycarbonate in the colour smoked glass grey. Drainage is via a gutter with a downpipe, which is included in the scope of delivery. Thanks to the high-quality materials used, the canopy is corrosion-resistant, durable, hail-proof and frost-proof.

No. 40987

## Mobilissima indoor tribune

The Mobilissima can be used indefinitely. The high assembly speed means that up to 50 seats are available per unit! You can increase the number of seats as required by adding as many sets as you like, and the grandstand only requires a minimum storage space of approx. 3.8 m<sup>2</sup> for storage. The elements are delivered pre-assembled. All that remains to be done is to screw on the castors. The advantage: quick and easy to move and set up by one person. Steel construction RAL 7016 [PU-coated]; seat surfaces made of glued multi-layer wood panels, natural beech, 2\* treated with DD lacquer, edges sanded and sealed colourless. Treads and steps made of glued plywood, natural beech, 2 x treated with DD lacquer, tread edges sanded and sealed colourless, polyamide castors Ø 100 mm, runners with hard-wearing felt covering.

No. 409651 indoor, without preassembly

- 5 grandstands with different lengths
- 5 rear railings
- 2 side railings
- Operating instructions

# Training Walls + Ball Machines

## Air-Tennis practice wall

The recently developed Air-Tennis tennis practice wall is the ideal training partner for everyone, from beginners to experts. This product is a unique and absolutely unbeatable piece of training equipment for use in stationary or transportable mode. It comes in a bag and is easy to transport. To set it up, simply unfold it on the ground and roll it out. Use the bellows [supplied], then fill it with air - it just takes seconds. You can use the air pressure gage, also supplied, to check that the air pressure is at the right level, as this also affects the way the ball bounces back. There are also attachment straps on both sides for attaching the practice wall to our pairs of stands, fences, or sports hall walls. You can also empty it in seconds, simply by turning over the bellows. Players can play on both sides of the Air-Tennis practice wall. It has lines marked on it at the height of the net to guide the player. Tested by international trainers who rated it very highly.

No. 42068

## Tennis Tutor ProLite

The wide speed range makes this machine a superb choice for all beginners. Due to the small size and light weight it can be stored easily and fits in almost all car trunks. A good choice for sports lessons in schools as well as for private use. The ball trajectory is manually adjustable from groundstroke to towering lob. The oscillator delivers shots randomly across the court.

### Technical details:

Ball capacity:	125 balls
Dimensions:	[HxWxD]: closed 31 x 50 x 46 cm
Weight:	13 kg
Power:	battery
Playing time:	2 - 3 hours
Recharging time:	12 hours
Feeding interval:	1.5-10 sec.
Top speed:	96 km/h
Ball flight:	stop to lob
Line-directions:	1 direction and random
Case:	plastic
Remote control:	no - on-off switch

No. 42013

## Tennis Tutor Plus

The ball machine Tennis Tutor PLUS is battery operated. It is portable and rollable like a suitcase when the handle is pulled out. The ball speed is adjustable from a light throwing ball for beginners to a high-speed ball for advanced players. The trajectory can be set between net roller and lob, regular ball sequence and arbitrary scattering angle.

### Technical details:

Ball capacity:	150 balls
Dimensions [HxWxD]:	51 x 50 x 50 cm
Weight:	21,6 kg
Power:	battery
Playing time:	4-6 hours
Recharging time:	12 hours
Feeding interval:	1,5-10 sec.
Top speed:	136 km/h
Ball flight:	short to long
Line-directions:	topspin, spin,flat,slice
Ball spin:	one direction and random
Housing:	plastic
Remote control:	yes on/off

No. 42012

## Tennis Twist

Especially designed for children and beginners. The Tennis Twist can be used in clubs and schools as well as in backyards, driveways and even basements. The machine is very easy to use - just turn it on and it shoots a ball every five seconds. The arc of the ball can be adjusted anywhere from approx. 3 - 6 meters.

### Technical details:

Ball capacity:	28 balls
Dimensions [HxWxD]:	50 x 20 x 20 cm
Weight:	5 kg
Power:	battery
Playing time:	5-6 hours
Feeding interval:	5 sec.
Top speed:	15 km/h
Ball flight:	straight
Lines-directions:	1 direction
Ball spin:	no
Case:	plastic
Remote control:	no on-off switch

# Training Walls + Ball Machines

## Ball machine Playmate VOLLEY DREAM

The ball machine Playmate Volley Dream is a high-quality portable ball throwing machine with aluminum housing and battery operation. It meets the highest safety requirements. There is a sensor installed, which immediately stops the ball ejection if a person stands in the immediate vicinity in the ejection direction. Furthermore, the new Volley Dream comes with a lockable lid, which must be locked for safety reasons in game mode. It can be set in seven directions. For example: right, middle, left, left right, right, middle. Likewise, it plays top spin and slice, as well as short-long. The ball sequence can be adjusted continuously to 6-60 pieces of balls per minute. An ideal device for individual or group training. Exact throwing accuracy and quiet running. With the newly integrated accessory „i-Playmate“ you can use an App to control the Playmate i-Smash via the i-Phone or i-Pad, as well as record, document and compare your training achievements.

### Technical data:

- Capacity: about 180 balls with lid closed.
- Dimensions: (height x width x depth) 64 x 56 x 48 cm
- Weight: 31 kg
- Power connection: battery operation (charging current 230 V)
- Battery life: min 4 hours
- Charging time: 6 hours
- Top speed: 140 km / h
- Ball sequence: 1 - 10 sec.
- Trajectory: short-long, infinitely adjustable Ball Types Top Spin, Slice
- Ball Types: Top Spin and Slice
- Spread angle: 7 directions right-left-center
- Housing: aluminum with lockable lid
- Safety: Shut down sensors
- Remote control: wireless, on / off

No. 30675

## Mini playing field Arena Court Royal stationary

This facility fulfils the requirements of a modern sports facility that is designed for long-term use. Support posts made of aluminium profiles are set in concrete at 5 metre intervals, between which steel-coated composite elements are mounted vibration-free. The elements of the pitch boards are extremely robust, weather-proof, impact-resistant, physiologically harmless and at the same time quiet.

Prices, technical details, other playing field variants and accessories on request

## Court Royal Street Soccer mobil

The weatherproof board system in 3 standard sizes can be assembled and dismantled as often as required, transported and stored to save space. Assembly and dismantling is particularly quick and easy without tools. It is intended for temporary use, e.g. for events, celebrations, trade fairs, etc.. The white advertising spaces are ideal for displaying sponsor advertising. We will be happy to make suggestions for the foiling of the hard foam panels. Special sizes and other designs on request.

## Info-Box TMD 95

The information boxes in the TMD 95 series are absolutely weatherproof constructions suitable for outdoor and indoor use. They are made of high-quality, torsion-free aluminium profiles with a construction depth of 95 mm. The surface is silver matt anodised [E6-EV1].

### Basic housing

Very sturdy aluminium frame with recessed, corrosion-resistant coated steel rear panel.

### Front frame

The front frame consists of torsion-free multi-chamber aluminium profiles with an integrated, weather-resistant rubber seal and shatter-proof acrylic glass pane.

### Front frame stop without hinges

The special aluminium profiles that interlock across the entire width make it possible to dispense with hinges. This results in significantly greater stability.

### Special opening mechanism

The front frame opens upwards. It is held in the open position by automatically engaging catches. Lifting the front frame again releases the catches.

### Security lock

A high-quality safety lock is attached to the underside. This ensures trouble-free and simple operation. 2 keys included in the scope of delivery.

### Wall mounting

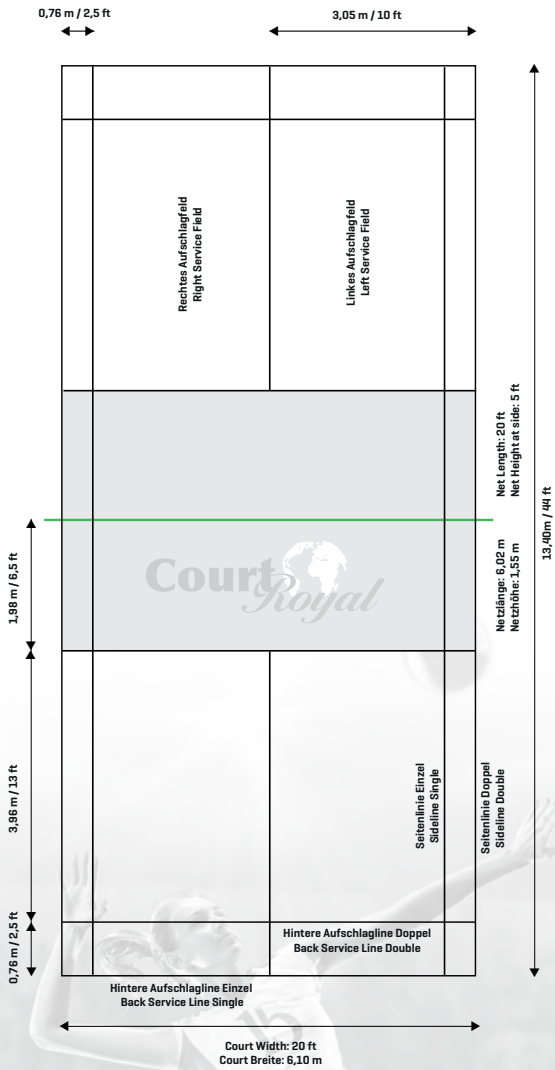

It is attached to the wall using two aluminium profile rails, which are installed on the wall side. The info box is hooked into the rails and fixed in place with 2 screws. All fastening parts are housed in the profiling of the frame. This means that it cannot be removed when closed and offers a high level of theft protection.

TP 83 No. 404471 round

### Aluminium bench seat with 4 seat shells Made in Germany

The brand new aluminium bench from our own production. Assemble the bench according to your individual requirements. The grandstand seats can be easily attached to the aluminium frame with just three screws. This modular system makes an enormous variety of colours possible, e.g. club colours. The frame is made of natural aluminium and is equipped with a sturdy cross strut. The bench is UV-resistant and absolutely weatherproof thanks to the water drainage on the seat shells. Thanks to its low weight, the bench is easy to transport. Screws for fastening and cover caps are included.

Height: 900 cm Width: 450 cm Length: 1960 cm  
No. 41221 black

### Advertising referee chair Court Royal Deluxe Grand-Slam

The heavy-duty tennis chair is completely clad with 10 mm PVC panels. The advertising panels between the steps are made of 3 mm PVC. The aluminium base frame is plastic-coated.
